SOPHISMS OF FREE TRADE & POPULAR POLITICAL ECONOMY EXAMINED. By a BARRISTER. In fcap. 8vo, price 4s. 6d. cloth.

CRITICAL NOTICES.

"A work which completely exposes the utter folly of that system under which the country is now suffering so grievously. We can scarcely desire anything better for our country, than that the book be read universally."—*Standard*.

"A little volume which has just appeared, of great brevity and terseness, but of most unanswerable logic."—*Morning Herald*.
"Written with a force and clearness of language, and a power of illustration, which few persons could command. It is presented opportunely to the public mind, at a time when an uneasy apprehension is creeping through the ranks of Free-traders."—*Banker's Circular*.

"In another part of our paper we have borrowed a second chapter from that admirable and unassailable work, 'Sophisms of Free Trade Exposed,' to which we have on more than one occasion lately referred. Of that work we say advisedly, that no man who wishes to understand a subject, involving the weal or woe of England, ought to be without a copy. So complete are its facts, so lucid its arrangements, and so irresistibly conclusive its deductions, that we wonder not at the silence with which it has been passed over by the disciples of the Manchester school."—*Bell's Weekly Messenger*.

"This book is not addressed to the passions or prejudices of party. It is a grave inquiry into the truth of many of those popular sayings which superficial people have of late years been content to receive from the Manchester school unquestioned. 'A Barrister' meets the political economists with their own weapons, and he fairly vanquishes them in the intellectual conflict. One by one he takes up their 'sophisms,' and quietly, but completely, strips them of their plausibility, and shows them to the world the naked cheats which they really are. We feel that we are in the hands of a man of strong intellect and good principle, and we can pronounce this little book to be of very great service to the cause of truth and sound policy."—*Cambridge Chronicle*.
